24th November 1949] [Janab Mohamed Abdul Salam]

" Sir, my hon. Friend, Sri T. Viswanatham has explained at length how this Bill comes into clash with the Central Act. Simply because the Governor-General has given his sanction to this measure, this Government have thought that they could proceed with this Bill. Mr. T. Viswanatham gave us instances to show how many of the provisions of this Bill clash with the Central Act. I can give the House another instance how this Bill clashes with a different Central Act. From the date on which the Government take over the assets and liabilities of a certain concern, the post of the managing director of that company goes, and he cannot claim any salary or allowance. Clause 15 of this Bill says that, ' Any agreement between the licensee and his managing agent or managing director shall notwithstanding anything to the contrary in such agreement, be deemed to have been terminated on that date; and the managing agent or managing director shall not be entitled to any remuneration of commission for such period of the agreement as may remain unexpired on the vesting date or to any compensation for the loss of such remuneration or commission.' But that managing director of that company has been elected according to the provisions of the Indian Companies Act, which is a Central Act, by the general body of shareholders. The Government cannot simply come and say, ' Even though you have been duly elected under the Indian Companies Act, we will not pay you anything, because we are going to expropriate the concern '. I think, Sir, that this provision conflicts with the provision in the Indian Companies Act, and therefore it is better that the Government consult their legal advisers in this matter. They cannot simply flout the sanctity of contracts entered into by the company with the managing director, who is elected by the general body, and say that he cannot claim any compensation at all.

" Sir, one of the very pithy remarks made by the Hon. Minister for Public Works was that some of these private companies are on the verge of collapse. No doubt, Sir, it may be true, owing to the want of new plants and machinery and finance. The Narasaraopet Electric Supply Corporation is one example of that. For the last three years this Government have been promising that company to get the necessary new plant and machinery, and I have got letters with me to show that the Government have also assured them that they would give them the necessary financial assistance. But up till now no machinery has been supplied, nor any financial assistance given by the Government. Such being the position, it is not fair for the Hon. Minister to come forward and say that they are on the verge of collapse and so the Government would be helping them by taking them over.

" Sir, the Hon. Minister has no doubt, accepted that these companies have done some pioneer work in the field, but what is their fate under this Bill. The Hon. Minister knows that the rupee value has come down due to devaluation, and my hon. Friend Mr. Kothari who is an expert in share values and share dealings, has clearly shown that these shares are going down; but
